Job recommendation

Ctibor Dostal, M.D., born 21 April 1961, has been working in our Clinic from 2.1.92 to 12.8.94 and from 1.3.01 to 29.4.02.

He impressed me as a doctor who is very interested in the field of paediatrics, with good professional knowledge, a broad differential diagnostic ability and with good attention to detail. During the time he spent in my department he has been involved in care for complicated patients with systemic autoimmune disorders.

He has a good knowledge of English and is able to lecture in English. He is able to use PC and internet professionally.

Dr Dostal always has a kind and caring attitude towards his severe ill paediatric patients and is a reliable and friendly colleague.

Zdeněk Šumník, M.D.

Head of the Unit of Endocrine and Autoimmunity Diseases
